

SPECTRA launches the all new Spectra PRO Winnower.

The Spectra Pro Winnower is a the latest innovation from Spectra... all new in 2018, this all new Winnower is designed to work for both the amateur or a professional and an ideal size. It can handle about 30 kgs/hr of cocoa nibs or similar. In conjunction with the Spectra Pro Cracker, it can be an invaluable addition to your bean to bar enterprise.

Multiple control points in the feeder, suction and the flow system allow you to control the degree of separation of the husk from the nibs easily and finely. One or two passes can produce a 98% separation easily.

CE certified motors and electronics provide long lasting service. All food contact parts are in food grade 304 stainless steel. Fine dust collection, adjustable rubber padded legs, robust support all together provide a full package that can be shipped worldwide.

About Spectra – Spectra is the world’s longest serving manufacturer of stone grinders, and with the widest range of sizes and innovations for chocolate melangers, nut butter grinders and more. Serving more than 25000 customers worldwide across 30 countries, Spectra serves customers with 8 dealers and can ship direct to you worldwide. For more details are available at www.SpectraPlaza.com
